

The Nursing Activity Reporting System (NARS)

- **Annual Reporting**

Approved Providers are required to submit their Activities to the Nursing Activity Reporting System (NARS) by February 15th of each year.

To login to NARS go to <https://nars.nursecredentialing.org/Login.aspx> and login using the user ID and password provided to you previously.

If this is an ER/LA Opioid REMS activity that is commercially supported by the REMS Program Companies (RPC)/Campbell Alliance, Ltd., you can fulfill the activity data reporting requirements of your commercial support agreement by completing the questions in the FDA REMS section below. You may also choose to complete this section if this activity addresses the ER/LA Opioid REMS but it is funded by a commercial supporter other than the RPC/Campbell Alliance, Ltd. or it does not receive any commercial support. If this is not an ER/LA Opioid REMS activity, then you do not need to complete the questions in the section below.

Food and Drug Administration (FDA) Risk Evaluation and Mitigation Strategy (REMS)

The goal of this section is to facilitate data collection that will demonstrate the scope of REMS CNE activities. The ANCC is collecting this data as a service to the CNE community, the FDA, and other stakeholders. It is the provider's choice whether or not to enter this data. This activity can be closed and your ANCC year-end reporting requirements can be met without this data.

If this activity addresses an FDA REMS, select the REMS from the list below. If not leave as "Not a REMS activity".
